Manager of Production and Design | **AFIN Technologies** | 2020 - present Championed a team of project managers, graphic and web designers, and print coordinators through execution of B2B and B2C initiatives. Solid success directing and implementing broad range of revenue-generating design projects, from conception to launch, ensuring projects met all milestones, deadlines, and budget requirements. Problem solver and intuitively adapt to new technology and responsibilities while ensuring compliance with corporate standards. Designed and built Shopify stores, Wordpress sites, Bootstrap websites and maintained corporate websites. Ensured consistent and cohesive branding when creating websites, responsive email campaigns, social media for product launches, and print.

Senior Web Designer & Front-end Developer | Entertainment | 2011 - 2020

Respected leader responsible for the creative design, front-end development, and optimization of websites, emails, and a variety of digital collateral. Designed, developed, and prototyped multiple apps including UX/UI. Created video and motion graphics. Using HTML, Shopify, WordPress, and Bootstrap frameworks, developed and designed websites. Implemented responsive design transition on company website and emails creating an increase in mobile click-throughs and conversion rates. Designed user flows, wireframes, and prototypes for UX/UI testing. Proven to be agile on quick turnaround projects while learning new technologies and producing high-caliber work.

Creative Developer | Fluency Media | 2007 - 2011

Produced design concepts and coded website designs, email marketing, flash animations, and social media. Implemented front-end HTML and CSS code in static and dynamic environments in WordPress. Agency client work included MEDC (Pure Michigan), Quiznos, Tropicana Las Vegas, Maaco, and Johnson & Johnson.

Creative Director | The Nailco Group | 2003 - 2007

Executed and created initiatives and overseeing other designers on main projects. Design projects range from web graphics and animations, email blasts, catalogs, magazine layouts, brochures, logos, package design, photo retouching, video production, and illustrations. Some projects included photo shoots. Fast-paced work environment with strict deadlines.

Graphic Designer | Ford Motor Company | 2000 - 2003

Worked directly with clients, printers, and top-tier management to create designs for marketing and sales as well as charitable groups. Projects included logos, brochures, newsletters, caricatures, computer illustrations, posters, and web animations.

Art Director | Pride Source Corporation | 1998 - 2000

Directed design and production of the weekly newspaper and phone book from the preliminary stages to the final printing. Responsibilities included layout, design & meeting strict deadlines. Created the initial web site for company. Also designed majority of advertisements and commercial design work.

FREELANCE | 2009-present

Continuous clients that required initial concepts to completion. This included branding, design, and websites. Also created flyers, banners, posters, email, brochures, flyers, trade show materials, logos, online learning modules, image retouching and computer illustrations.
